

2023 Cedar Lane Vineyard Sauvignon Blanc

Vineyard:

Cedar Lane Vineyard is located in the Arroyo Seco River drainage on the eastern side of the Santa Lucia Range, west of the town of Greenfield. The soils are predominately sandy with prominent amounts of granite cobblestones dotting the rows. The Sauvignon Blanc grown at this vineyard is of the Musque clone which thrives in sunny and windy Salinas Valley.

Winemaking:

The fruit is hand-harvested and whole cluster pressed at the winery and tank fermented. The wine was rested for 6 months in stainless steel on the light lees prior to bottling with arrested malolactic fermentation.

Tasting notes:

Rounded aromas of peach bubblegum and tangerine sorbet are cut by a steely minerality on the nose of this bottling. That poppy, candied passionfruit flavor is framed by a chalky frame on the palate.

VINEYARD	Cedar Lane Vineyard
CASES PRODUCED	383
VARIETY /CLONE	Sauvignon Blanc Musque
HARVEST DATE	September 20 th 2023
RELEASE DATE	April 2024
WINEMAKERS	Mark Chesebro/Will Chesebro
BARREL AGING	6 months stainless steel
